

SAFETY COURSES

FALL PROTECTION AND DANGER CAUTION TAGS (SF25A)

COURSE OBJECTIVE:

This course provides the participants with the ability to work safely, particularly when they are off the ground and also explains the importance of design implementation and compliance of caution and danger tags/signs. OSHA Standard will also be discussed for Danger and caution tags/signs.

WHO SHOULD ATTEND?

The course is recommended for technicians, engineers, foremen, safety engineers and personnel.

COURSE CONTENTS:

- Introduction
- Fall protection systems
- Equipment standards
- Design of different Types of signs
Danger signs.
Caution signs.
- Design features and choice of wording.

Duration: 5 Days

Date:	Venue:	Cost:
Mar 22-26	Qatar	USD 2,200
Jul 19-23	Kuwait	USD 2,200
Dec 13-17	Oman	USD 2,200

FIRE RESISTANCE and PROTECTION (SF03A)

OBJECTIVE:

This course is designed to increase knowledge and experience of fire safety science and application. Methods of extinguishments and precautions. Outline of inspection and systems. Standard and commentary for NFPA.

WHO SHOULD ATTEND?

This course is intended for anyone who involved in the fire resistance and protection field.

COURSE CONTENT:

- Introduction
- Fire Safety Science and Application
- Fire Problem
- Fire Detection
- Fire Alarm Systems
- Automatic Fire Detection Installation
- The Design of Carbon Dioxide
- FM 200 Fighting System
- Fire Cause and Prevention
- Methods of Extinguishments
- Outline of Inspection Procedures and Systems
- Standard and Commentary for NFPA 13
- Examples and Case Study

Duration: 5 Days

Date:	Venue:	Cost:
Jan 18-22	Bahrain	USD 2,200
May 31-Jun 4	Abu Dhabi	USD 2,200
Oct 4-8	Kuwait	USD 2,200
